Note: This map represents the best data currently available and is intended to be used with Interim Management Guidelines for Sage Grouse. New data will be added over the next two years as a long-term Conservation Strategy is developed.

Note: Data compiled by ODFW and BLM wildlife biologists. Data is draft and can be expected to change. Other nesting, wintering, and altered native habitat exist that are not yet mapped.

Note: For purposes of this map, no attempt is made to distinguish sage grouse habitat or lek locations on the basis of land ownership.
