9. Statement of Project Goals and Objectives:

These BLM roads require more maintenance, including roadside brushing, due to high public use. There are no provisions in place to collect funds for maintenance from public users, therefore we have an unmet financial need to secure stable funding in order to economically maintain safe condition of these roads for public use. Additionally there is a need to maintain drainage structures to reduce sedimentation. These roads are adjacent to county roads making it logistically convenient for County Road Maintenance to take over the upkeep of the roads.

10. Project Description: (Provide concise description of project and attach map.)

To fully maintain listed roads by County Road Maintenance, which includes surface maintenance and repair, ditch and culvert cleaning, and brushing.

11. Coordination of this project with other related project(s) on adjacent lands?

Yes No If yes, then describe.

<p>These 19.4 miles of BST roads, maintained currently by BLM road maintenance crews. The proposal is to have Jackson County take over maintenance on these roads, at an estimated cost of \$34,350, this includes costs of annual hot mix patching and brushing. These roads are adjacent to county roads which makes the takeover logistically economical.</p>
