

# \$ 2000.00 REWARD

FOR INFORMATION LEADING TO A SUCCESSFUL PROSECUTION OF INDIVIDUAL(S)  
RESPONSIBLE FOR THIS VANDALISM

*Pictograph, September, 2001*

*The same pictograph, now fire-spalled in  
January, 2003*

In December, 2002, vandals defaced and destroyed several pictographs within the Badlands Wilderness Study Area. This crime resulted in the loss of irreplaceable archeological resources and important educational benefits for future generations.

The Bureau of Land Management is presently taking actions to restore and protect the site. You can help by practicing the following principles:

- Enjoy these ancient images by viewing, sketching or photographing them. Chalking, tracing or otherwise touching these drawings can damage them forever.
- If you find stone flakes or other artifacts on the ground, please leave them where they are – it's the law.
- Please be sure to Leave No Trace of your visit. Take only photos and leave only footprints.
- Remember, it is everyone's responsibility to ensure the protection of these special places.

If you observe vandalism or other illegal activities at this or any other Bureau of Land Management site, please contact Ranger Roger Crisafi at (541) 416-6881.
