LCM-02

MAY 2003

5-15-03.

Littll Canyon mt. management Plan, after the meeting on 5-9-03 and meeting with Don Tippy you need to work on the area every year not over 10-15 years. as / what the BLM People want. we need to log all the dead and dying trees even if they are big trees these are the trees that let you do something else for the land than you can do with the little trees - we - you - need to clean up the area and do it when it is needed. all roads should be left open most of the roads are used for mining at least talk to the miners

about these roads dont just decide to do this they arnt your roads.

Mount Vernon
PO Box 603 MF 97848
Eugene K Emery

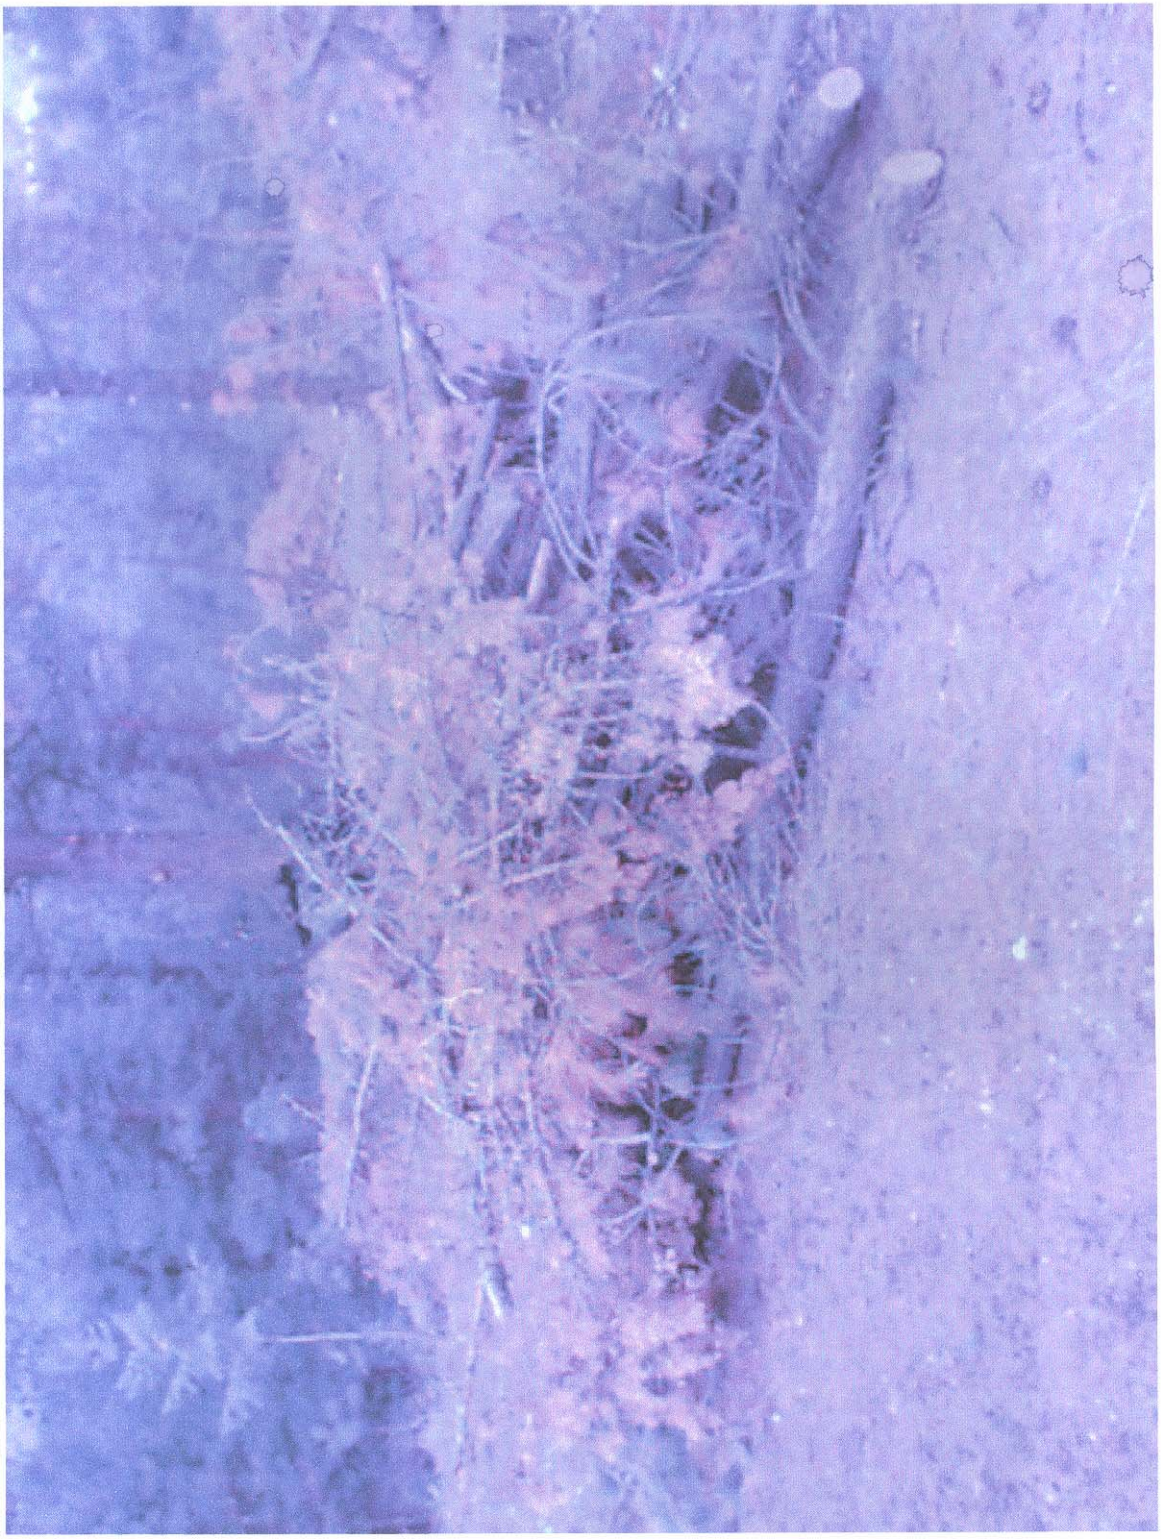
I like D and F. of your alternatives you need to use all parts to do the whole job.

if I can be of any other help please dont hesitate to de Ke, 932-4598
Gene.

the Fires that will burn will kill the trees, they are Rebel against them the Piles.

Dont spend very much on the roads. miners will fix most of them. use drain dips.

Dont use B.A. it doesnt matter if you dont top all the dead stuff.



GENE EMORY COMMENTS ON LITTLE CANYON MTN.

TALK TO MINERS ABOUT INDIVIDUAL ROAD CLOSURES

"DON'T CLOSE A ROAD IF YOU CAN'T ENFORCE IT"

CLOSE A ROAD W/JUST A SIGN → THAT SAYS WHY ROAD IS CLOSED NOT A TANK TRAP BECAUSE THAT IS AN EXPENDITURE OF $ THAT IS WASTED 'CAUSE

DON'T PROMISE TO GO BACK IN CAUSE YOU CAN'T PREDICT IF YOU'LL HAVE THE BUDGET TO DO SO.

NEED TO GO IN EVERY YEAR TO CULL OUT SOME TREES

NEED TO CUT THE BIG TREES TO MAKE MONEY – THE SMALL TREES BELONG TO THEIR CHILDREN.
