

**Vale District Bureau of Land Management
Cedar Mountain Fire Emergency Stabilization Plan (M707)
Environmental Assessment
EA No. OR-030-03-20**

Decision Record

This Decision Record documents my decision to select the proposed alternative for implementation of the Cedar Mountain Fire Emergency Stabilization Plan. This action was analyzed in the attached Environmental Assessment (EA OR-030-03-020). This proposed action is tiered to and is consistent with the Southeastern Oregon Resource Management Plan dated September 2002, the Malheur County Land Use Plan, and BLM policy.

My decision is to implement actions to construct and maintain temporary fencing to protect burned areas from livestock grazing and monitor natural recovery of desired native vegetation.
