

Appendix I - Allotment Management Summaries

The following summaries provide multiple use information for each grazing allotment in the Planning Area. Each individual table is organized by allotment name and number and contains the following information:

- The Selective Management Category (M, I, C).
- Whether the allotment has an AMP and when it was implemented.
- The season of use.
- Whether the allotment has been assessed for S&Gs and when it was done.
- The permitted use and suspended use for livestock grazing.
- Forage allocations for wildlife and wild horses.
- Acres of public, private, state and refuge lands.
- Pastures associated with the allotment, including size, percent public land, ecological condition, upland trend, and major objectives.
- Pastures within the allotment that have riparian and water quality considerations and the miles of stream that are affected.
- Potential range improvement projects planned for the allotment over the life of the plan. This list is not rigid, so proposals may be added or deleted that reflect the situation at any particular part of the implementation period.
- Resource concerns that may be affected by potential actions within the allotment.
- Other pertinent information.

Since publication of the DRMP/DEIS, the Bridge Creek Allotment (06037) was combined with the Hardie Summer Allotment (06025). The two allotments were grazed by the same permittee, in a rotation which made combining the allotments necessary for ease of management. Other changes since the draft are: the addition of riparian and water quality considerations by pasture; the ecological condition and trend of upland areas by pasture; and potential range improvement projects. The allotment objectives from the AMPs were removed from each allotment summary since publication of the DRMP/DEIS.

The allotment summaries are listed by allotment number. The following is an alphabetical listing of the allotments along with the allotment number to better assist the reader in finding the allotment of interest.

Alvord (06012)	Krumbo (06008)

North Big Hill	2,522	93	early seral	up	A, B
South Big Hill	3,633	98	mid seral	up	A, B
Smyth Creek Canyon	957	92	mid seral	static	A, B, D
Exclosure	30	97	mid seral	static	C
Hay Meadow	147	54	mid seral	static	A, B
<u>Potential Range Improvement Projects:</u>					
- Juniper cutting (600 acres)					
<u>Identified Resource Concerns:</u>					
- Riparian					
- Water quality					
- Special Status Species: ferruginous hawk, redband trout, Malheur mottled sculpin					
- Kiger HMA					
- Kiger Mustang ACEC					
<u>Other:</u>					
- Only about 13% of the Happy Valley Allotment is within the Andrews/Steens Planning Area. All or portions of the Government Field, Deep Creek, and South Big Hill Pastures are within the Planning Area. The remaining portion of the Happy Valley Allotment is within the Three Rivers Planning Area.					

¹ Current allotment management objectives

- A) Improve the ecological condition of upland vegetation communities.
- B) Maintain the ecological condition of upland vegetation communities.
- C) Maintain the integrity of research plots and exclosures.
- D) Maintain/improve the condition of riparian vegetation communities.
- E) Pasture dominated by private land and managed custodial with no specified management objective.

<u>Other:</u>						
- The entire allotment extends into Nevada and totals 26,311 acres of public land. The total permitted use in the allotment as a whole is 2,069 AUMs. Only the portion within Oregon is in the Planning Area.						

²³ Current allotment management objectives

- A) Improve the ecological condition of upland vegetation communities.
- B) Maintain the ecological condition of upland vegetation communities.
- C) Maintain the integrity of research plots and exclosures.
- D) Maintain/improve the condition of riparian vegetation communities.
- E) Pasture dominated by private land and managed custodial with no specified management objective.
