

WHO TO CALL WHEN YOU HAVE A QUESTION

The following coordination team members are ready and willing to take your call or answer your email query. Any one of them can answer questions about the process or direct you to the proper person-the answer you get will be an interagency answer. If you have specific agency process questions or a specific fish, wildlife, or rare plant question you will need to call the person listed for that agency or technical specialty. We will try to get an answer to your question as soon as possible.

Name	Agency	Technical Specialty	Phone	e-mail
Ron Bolander	BLM	Plants	801-539-4065	Ron_Bolander@ut.blm.gov
