KLAMATH FALLS RESOURCE AREA PLANNING UPDATE Winter 2002

The primary purpose of this Planning Update is to inform you about the activities on the Klamath Falls Resource Area. It is my desire to keep you informed about issues, activities, and opportunities I think are important to the public. More importantly, I am seeking ideas and comments from those who may be affected by multiple-use management programs here on the resource area.

This planning update is organized to make it easy for you to find projects of most interest. Projects have been arranged into categories (i.e., Recent Decisions, New Projects, On-going Projects, and Environmental Education Activities). In addition, each of these categories is sorted by resource topics (e.g., Lands Program, Timber Sales, etc.). The table will give you a brief description of activities occurring within the Klamath Falls Resource Area and for most projects a location. Refer to one of three maps following the table, for locations of projects.

Additional information can be obtained from the contact listed in the project descriptions. If you have any concerns about the proposed actions, please call the Klamath Falls Resource Area and ask for the "Contact" person listed or the Resource Area Planner as soon as possible. The earlier you get involved, the more capability we have to adjust or change planned actions. Also be alert for news releases and public notices published in the Herald and News as projects reach stages for public involvement. If you want to provide comments to a specific environmental assessment, please send or deliver your written comments addressed to the Field Manager, Klamath Falls Resource Area, by the close of, or postmarked by the last day of the comment period. Your comments and concerns are welcomed, and could influence the final decision on these projects.

I would appreciate any comments or suggestions you may have regarding this planning update or how it could be improved to make it more useful to you.

Thank you for your continued interest in BLM's management of public lands. If you have any questions on this planning update, stop by the office or call (541) 883-6916.

/s/ Teresa A. Raml

Ongoing Projects – General Planning						
Map 1 #4	Gerber/Willow Valley Watershed Analysis. The purpose of this project is to analyze the conditions of the watershed on Forest Service and BLM land and document recommendations for improvement in a written watershed assessment to be completed by both Federal Agencies.	Gerber/Willow Valley Watershed	Riparian Hydrology	Field Analysis is ongoing. Public Scoping initiated July 2000	Draft document scheduled for Spring 2003	Mike Limb
Map 1 #5	Gerber/Willow Valley Coordinated Resource Management Plan (CRMP) Watershed Analysis. The purpose of this process is to involve private landowners in the watershed analysis process. A Local Planning Team (of private landowners, State and Federal land managers, and concerned citizens) makes recommendations for improvements on private land that are documented within the analysis completed by Federal Agencies for future implementation of projects planned in the CRMP area.	Gerber/Willow Valley Watershed	Private Lands	CRMP meetings/discussions are continuing	Completion date open-ended	Don Hoffheins
Map 1 #28	Upper Klamath River Management Plan DEIS - Approximately 20 miles long encompassing 6,400 acres; develop a management plan in response to scenic river designation act requirements.	Klamath River - J.C. Boyle Reservoir, Oregon, to Copco One Reservoir, California	Wild and Scenic River designation, Area of Critical Concern, TES spp.	Initial Scoping completed. Draft EIS completed, to be released early 2003.	FEIS in Fall 2003	Larry Frazier
Map 1 #29	Upper Klamath Basin and Wood River Wetland Resource Management Plan Amendment for the Fourmile Creek portion of this area. The purpose of this project is to amend the Upper Klamath Basin and Wood River Wetland Resource Management Plan EIS, in order to designate the Fourmile Creek area as an Area of Critical Environmental Concern (ACEC).	Fourmile Creek Wetland	Riparian Wetland ACEC	ACEC Evaluation submitted to District Manager, October 2000.	Draft EIS to be prepared. Specific schedule and completion date unknown.	Lou Whiteaker
None	Memorandum of Understanding (MOU) between the Klamath Tribes and BLM for Coordination on Management Issues. The proposed MOU is to identify a process to coordinate and communicate tribal involvement with BLM management actions on public lands.	Lakeview District	Former Tribal Lands	The draft MOU was presented to the Tribal Council on February 22, 2000. Waiting for Tribal feedback.	Unknown	Larry Frazier
None	Late-Successional Reserve (LSR) Assessment. A single LSR Assessment is in preparation that will assess all 19 Unmapped LSR's designated within the resource area. The purpose of the assessment is to develop management recommendations for these areas to restore or maintain late successional habitat	BLM lands west of Highway 97 covered by the Northwest Forest Plan	Unmapped Late Successional Reserves.	Analysis is complete.	The Assessment will be submitted to the REO (Regional Ecosystem Office) in January 2003 for review.	Lou Whiteaker

Rangeland Health Standards Assessments						
<p>These assessments compare the monitoring information collected against the five Standards for Rangeland Health and propose management changes if current grazing use is not meeting the Standards, or not making significant improvement towards meeting them. Changes are implemented through the grazing decision or agreement process.</p> <p>* These assessments incorporated as part of the <i>Gerber/Willow Valley Watershed Analysis</i> effort; assessment completion will be when the Watershed Analysis is completed.</p> <p>** These assessments are the KFRA's Fiscal Year 2002 scheduled assessments. They are scheduled to be completed during calendar year 2002 (or early 2003). If any member of the public desires participation in the assessment process and/or a copy of the final assessment (once completed) please contact Bill Lindsey or Dana Eckard at the Klamath Falls Office.</p>
