ENVIRONMENTAL ASSESSMENT
South Douglas Resource Area
EA# OR105-94-20

Date Prepared: March 16, 1995

Finding of No Significant Impact

Based on the analysis of potential environmental impacts contained in the attached environmental assessment, I have determined that impacts are not expected to be significant and an environmental impact statement is not required. The project is in conformance with the Roseburg District Timber Management EIS (Sept. 1983), as amended by the April 13, 1994 Standards and Guidelines (S & G) for Management of Habitat for Late-Successional and Old-Growth Forest Related Species Within the Range of the Northern Spotted Owl and Record of Decision (ROD). The Aquatic Conservation Strategy will be met or exceeded (S & G, B-11). The Best Management Practices (BMP's) listed in the Roseburg District Proposed Resource Management Plan and Final Environmental Impact Statement (PRMP/FEIS, Oct. 1994), were used to develop project design features to mitigate impacts.
