

One Hundred Sixth Congress
of the
United States of America

AT THE SECOND SESSION

*Begun and held at the City of Washington on Monday,
the twenty-fourth day of January, two thousand*

An Act

Making appropriations for the Department of the Interior and related agencies
for the fiscal year ending September 30, 2001, and for other purposes.

*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,* That the
following sums are appropriated, out of any money in the Treasury
not otherwise appropriated, for the Department of the Interior
and related agencies for the fiscal year ending September 30, 2001,
and for other purposes, namely:

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

For expenses necessary for protection, use, improvement, development, disposal, cadastral surveying, classification, acquisition of easements and other interests in lands, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to Public Law 96–487 (16 U.S.C. 3150(a)), \$709,733,000, to remain available until expended, of which \$3,898,000 shall be available for assessment of the mineral potential of public lands in Alaska pursuant to section 1010 of Public Law 96–487 (16 U.S.C. 3150); and of which not to exceed \$1,000,000 shall be derived from the special receipt account established by the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 4601–6a(i)); and of which \$3,000,000 shall be available in fiscal year 2001 subject to a match by at least an equal amount by the National Fish and Wildlife Foundation, to such Foundation for cost-shared projects supporting conservation of Bureau lands and such funds shall be advanced to the Foundation as a lump sum grant without regard to when expenses are incurred; in addition, \$34,328,000 for Mining Law Administration program operations, including the cost of administering the mining claim fee program; to remain available until expended, to be reduced by amounts collected by the Bureau and credited to this appropriation from annual mining claim fees so as to result in a final appropriation estimated at not more than \$709,733,000, and \$2,000,000, to remain available until expended, from communication site rental fees established by the Bureau for the cost of administering communication site activities: *Provided*, That appropriations herein made

(1) COMPENSATION AND TRAVEL.—Members of the advisory group who are not officers or employees of the United States, while attending conferences or meetings of the group or otherwise engaged in its business, or while serving away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

(2) ADMINISTRATIVE SUPPORT.—The NETL shall furnish to the advisory group clerical and administrative support.

(3) PROCEDURES AND REQUIREMENTS.—In carrying out its functions, the advisory group shall comply with the procedures and requirements that apply to similar groups providing advice and counsel to entities operating other Department of Energy laboratories rather than the procedures and requirements that apply to such a group providing advice directly to a Federal entity.

SEC. 349. (a) In furtherance of the purposes of the Umpqua Land Exchange Project (ULEP) and previous Congressional appropriations therefor, there is hereby appropriated the sum of \$4,300,000 to be derived from the Land and Water Conservation Fund. Such amount shall be available to the Foundation for Voluntary Land Exchanges (“Foundation”) working in conjunction with the Secretary of the Interior, and with the U.S. Bureau of Land Management as the lead Federal agency, to complete a Final Land Ownership Adjustment Plan (“Plan”) for the area (“Basin”), comprising approximately 675,000 acres, as generally depicted on a map entitled “Coast Range-Umpqua River Basin,” dated August 2000. No more than 15 percent of this appropriation shall be used by the agency for defraying administrative overhead.

(b) In preparing the Plan, the Secretary shall identify, no later than March 31, 2001, those lands or interests in land with willing sellers which merit emergency purchase by the United States due to critical environmental values or possibility of imminent development. For lands or interests in land so identified, the Secretary and the Foundation shall arrange with landowners to complete appraisals and purchase clearances required by law so that the Secretary may thereafter consummate purchases as soon as funds therefor are appropriated by the Congress.

(c) Pursuant to the funding and direction of subsection (a), the Secretary shall, in cooperation with the Foundation, no later than December 31, 2002, complete the Plan utilizing the Multi-Resource Land Allocation Model (“Model”) developed for the ULEP. The Plan shall identify: (1) non-Federal Lands or interests in land in the Basin which, with the concurrence of willing non-Federal landowners, are recommended for acquisition or exchange by the United States; (2) Federal lands or interests in land in the Basin recommended for disposal into non-Federal ownership in exchange for the acquired lands of equal value; and (3) specific land exchanges or purchases to implement the Plan. In addition, no later than December 31, 2002, the Secretary, in cooperation with the Foundation, shall complete a draft Habitat Conservation Plan (“HCP”) covering the lands to be disposed of by the United States and consistent with the Plan, a comprehensive Final Environmental Impact Statement covering the Plan, and a comprehensive Biological Opinion analyzing the net impacts of the Plan at Plan scale over time in 5 year increments, taking into consideration

all expected benefits to be achieved by the Plan and HCP, and any consistency determinations or amendments to any applicable Federal land management plans. The HCP shall cover all species analyzed in the Model (including species under the jurisdiction of the Secretary of Commerce).

(d) No later than March 31, 2002, the Secretary and the Foundation shall submit to the Committee on Resources of the U.S. House of Representatives, Committee on Energy and Natural Resources of the United States Senate, and the House and Senate Committees on Appropriations, a joint report summarizing the Plan and the land exchanges or purchases identified to implement the Plan, and outlining: (1) any Fiscal Year 2003 funding needed for land purchases; (2) any recommendations for actions to expedite or facilitate the specific land exchanges or purchases identified to implement the Plan, or the HCP; and (3) an action Plan for making the Model publicly available for additional land exchanges or other purposes upon completion of the exchanges.

(e) No later than June 15, 2003: (1) the Secretary with the Foundation and the financial participation and commitment of willing private landowners shall complete appraisals and other land purchase or exchange clearances required by law, including those pertaining to cultural and historic resources and hazardous materials; and (2) the Secretary shall consummate with willing non-Federal landowners the specific land exchanges previously identified in subsection (c) to implement the Plan, and together with the Secretary of Commerce, shall issue the HCP.

SEC. 350. Notwithstanding section 351 of section 101(e) of division A, Public Law 105–277, the Indian Health Service is authorized to provide additional contract health service funds to Ketchikan Indian Corporation's recurring budget for hospital-related services for patients of Ketchikan Indian Corporation and the Organized Village of Saxman.

SEC. 351. (a) SHORT TITLE.—This section may be cited as the “Boise Laboratory Replacement Act of 2000”.

(b) FINDINGS AND PURPOSE.—

(1) FINDINGS.—Congress finds that—

(A) the existing facilities of the Rocky Mountain Research Station Boise laboratory are outdated and no longer serve as a modern research facility;

(B) the Boise laboratory site is in the heart of a Boise city redevelopment zone, and the existing laboratory facilities detract from community improvement efforts;

(C) it is desirable to collocate the Boise laboratory with 1 of the State institutions of higher learning in the Boise metropolitan area—

(i) to facilitate communications and sharing of research data between the agency and the Idaho scientific community;

(ii) to facilitate development and maintenance of the Boise laboratory as a modern, high quality research facility; and

(iii) to reduce costs, better use assets, and better serve the public; and

(D) it is desirable to make the Boise laboratory site available for inclusion in a planned facility that is being developed on adjacent property by the University of Idaho
